The Board of County Commissioners of Rosebud County, Montana, met in Regular session on August 3rd, 2021 at 10:00 a.m. in the Rosebud County Courthouse Commissioners' Office, with Douglas D. Martens, Presiding Officer, Robert E. Lee, Member, Ed Joiner, Member, and Clerk & Recorder, Pam Ash, Independent Press, present.

Commissioner Lee motioned to approve the consent agenda, to include all claims. Commissioner Joiner seconds motion, motion carried, 3-0.

Commissioner Joiner motioned to approve a Resolution adopting zoning for workforce housing. Commissioner Lee seconds motion. Discussion included Commissioner Joiner stating that after receiving information from our Sanitation Officer, who brought to our attention, Rosebud County does not currently have jurisdiction to regulate workforce housing. Commissioner Martens stated this would mainly be for large workcamps, where there is no garbage or sewer, having a Resolution for workforce housing allows Rosebud County to oversee it. Motion carried, 3-0. Resolution 1106 as follows:

RESOLUTION ADOPTING ZONING FOR WORKFORCE HOUSING

Under the authority of 76-2-201, MCA

Rosebud County

Resolution No. 1106

WHEREAS, initial oil, gas well and turbine development construction requires a large, temporary workforce that needs housing; and

WHEREAS, the rapid proliferation of workforce housing in the region requires measures to classify and regulate the location and conditions on such housing in order to provide a basic level of public health, safety and general welfare and to mitigate the impacts so as to not unduly burden the residents of Rosebud County; and

WHEREAS, Rosebud County's adopted growth policy provides guidance for encouraging development that provides for safe roads, traffic impacts and disposal of sewage, and waste management.

WHEREAS, the proposed zoning secures safety from fire and other dangers by providing a review and criteria that ensures housing will be separated, located, and built-in order to ensure access by fire protection services and availability of adequate water supply, while reducing the risk of spreading fire by requiring structural separation;

WHEREAS, the proposed zoning promotes the public health, public safety, and general welfare by providing for a review process and development standards that ensure availability of adequate water, wastewater, solid waste, and other public utilities for workforce housing; the provision of adequate emergency and other public services; adequate grading and drainage from such development; legal and physical access to the housing facilities; landscaping and visual buffering of the site from adjacent uses; and provides for the appropriate location and construction standards of workforce housing to ensure the preservation of the values of the quality of life and property in the county while meeting the immediate demand for workforce housing;

WHEREAS, the proposed zoning facilitates the adequate provision of transportation, water, sewerage by requiring review and improvements as necessary to roads, water systems and sanitation facilities

WHEREAS, the proposed zoning facilitates the adequate provision schools, parks and other public facilities which will be impacted with the increased population.

WHEREAS, in considering and adopting the proposed zoning, the County Commission considered the reasonable provision of adequate light and air by studying impacts that have already occurred in areas of Rosebud County.

WHEREAS, in considering and adopting the proposed zoning, the County Commission considered the effect on motorized transportation by requiring construction of roads to a set standard, generally recognized as adequate, for the movement of vehicles as well as required parking spaces to ensure that roadways are not blocked or travel width reduced by parked vehicles;

WHEREAS, in considering and adopting the proposed zoning, the County Commission considered the effect on non-motorized transportation systems by public input.

WHEREAS, in considering and adopting the proposed zoning, the County Commission considered the compatibility of urban growth in the vicinity of the cities and towns and found the proposed growth to be acceptable because there is a lack of housing in most areas of Rosebud County

WHEREAS, in considering and adopting the proposed zoning, the County Commission considered the character of the district and its peculiar suitability for the particular uses and found the proposed development to be generally suitable for the area because Workforce housing is needed to house temporary workforce associated with the oil, gas and turbine industry

WHEREAS, in considering and adopting the proposed zoning, the County Commission considered conserving the value of buildings and whether the zoning encouraged the most appropriate use of the land throughout the jurisdictional area and found that temporary workforce housing was needed.

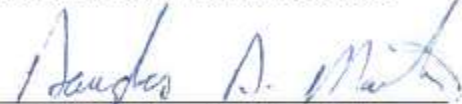

WHEREAS, in considering and adopting the proposed zoning, the County Commission considered whether the zoning regulations were, as near as possible, compatible with the zoning ordinances of nearby municipalities and found them to be compatible, as near as possible.

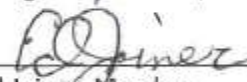

WHEREAS, the Rosebud County Commission noticed the Resolution on their agenda at a regularly scheduled meeting,

NOW THEREFORE, in order to promote the public health, safety and general welfare of Rosebud County, the Rosebud County Commissioners hereby adopts zoning for workforce housing with regulations as set forth in, Exhibit A, attached hereto and incorporated herein, under the authority provided by Section 76-2-201, MCA, *et seq.*, for the purpose of regulating the location and impacts of workforce housing in the County.

ADOPTED by the Rosebud Board of County Commissioners this day of August 3rd, 2021.
